

WELCOME TO STONEDWAVE RECORDS

We are a international experimental Techno / Electro and Psychedelic Label with almost 2 decades of underground dancefloor experience based in Düsseldorf / Germany. In our NRW headquarters we curate and orchestrate our soundportfolio featuring both international newcomers and veterans. Braindance, Acid, Industrial Techno, Noise, Breakcore, Electro, IDM, Neo-Classical -> our focus is not the mainstream but the quirkiest side of sound. Whatever style suits your choice the release section offers a wide range of fixes for your need. As DJ and Liveacts we follow the path of fun, innovation and tradition of scientific sound design. Our collective works in a creative and artistic realm. We provide a wide range of recordings on mixcloud, soundcloud, hearthis and bandcamp. Providing you the tools, instruments and insight we use to create our music you can create your own variations as well. By this we work together on your mental issues thus giving braindance a completely new meaning. Please don't call rather follow on bandcamp or send an email to stonedwave@gmail.com
